

50 Hikes in Arizona: Walks, Hikes, and Backpacks through Sky Islands and Deserts in the Grand Canyon State

An extensive guide to the best hiking Arizona has to offer. Isn't Arizona just all desert and cactus? Not really. In fact, Arizona has more topographical and habitat variety than almost any other state in the U.S. With elevations that range from 70 feet near Yuma to 12,700 feet just outside Flagstaff, Arizona's great diversity in climate, geology, flora, and fauna will surprise non-Arizonans and residents alike. In a short days drive, you can start out in the flat desert dryland and end up in arctic tundra among jagged peaks and you'll see much more that the state has to offer than just the Grand Canyon. This myth-busting book showcases a select range of short and long trails. Included are hikes where you can find waterfalls, springs, snow, subalpine mountaintops, boreal forests, and watrous canyons. Take the Bright Angel and Rim Trails down the Grand Canyon; visit Native American ruins; hike to summits with jaw-dropping views. And you'll find the desert trails are hardly barren?they're alive with saguaro and organ pipe cactus. You can leave inner-city Phoenix and Tucson for hiking treasures you'll find nowhere else. 50 black-and-white photos, 50 maps
