So she has no clue that her crush on the super cute but nerdy new guy Daniel Florez will soon result in their sharing a deep soul kiss a kiss that will change her life forever. Suddenly, she's plunged into a world of FBI agents, gangster thugs, and Cuban exiles. And what's up with her brain? How come she's so much smarter than she used to be? Just one kiss from Daniel turns Melissa's world into something from the Sci-Fi Channel -- have Daniel's brain cells been leaking into her? How's that possible? And yet she's reading faster than she ever has before, scoring higher on school tests, and even helping her parents understand what's wrong with her brother, the Big Mistake.
