

Finding Kia (The Lost Girl Series, Book 1)

Maybe you should avoid me tonight. His arm slipped around my waist and I was drawn into his chest. If I only have this one night with you, the last thing I'm going to do is stay away. Kia Valentines had always accepted the fact that she was a nerd, a nobody. It was a badge she wore with honor, until the day she saved Claudia DeLorenzos life and lost herself. When offered the chance to shed her identity for a single night, Kia never believed it would change her life. It was one night. It meant nothing, or it shouldn't have. But that single night turned out to be her undoing when she finds passion in the arms of the one person she can never have. Adam Chaves was more than just a gorgeous face, he made her laugh, but more importantly, when he looked at her, she felt like the most beautiful girl on earth. But Adam has no idea that Kia was the girl behind the mask and Kia has no intention of telling him. But a secret can only be kept if no one else knows about it. Claudia knows and she wants something Kia isn't willing to give in order to keep it. Will Kia succumb? And just how far is Claudia willing to go to get what she wants?
