

The noteworthy interest aroused in the rather long neglected works of Ben Jonson within the last dozen years would in itself be sufficient justification for a separate edition of *Catiline*, even were the play not intrinsically worthy. However, *Catiline* is by no means a despicable drama. Flat as its declamation may seem beside the rapid action of the romantic drama, it yet contains patent evidences of greatness. The touch of a master hand (although it seems at times misguided) is everywhere present in the firm grasp of character, in the orderly progression of plot, and in the marvelous skill with which so many classical sources are fused into one organic whole. Further, *Catiline* has a very definite historical interest. It was the weight of Ben Jonson's authority and example in *Sejanus* and *Catiline* that firmly established the Senecan tragic traditions and methods, which had previously had but a precarious foothold, upon our stage.¹ Then, too, critics generally have been too hasty in ascribing the so-called classical age entirely to French influence. Without unduly belittling this foreign agency, I yet think it may be safely maintained that under the impetus of Ben Jonson's authority, a classical drama of some sort was bound to evolve. In editing *Catiline*, I have devoted a great deal of attention to sources, because Jonson is peculiarly faithful to his authorities, priding himself on his erudite and accurate classicism. In this consideration of sources, I owe a great debt to an unpublished thesis in the library of Yale University, by Miss Alice P. Wright, *A Study of Ben Jonson's Influence on the English Drama, 1590-1630*, in *Anglia* (Typographical errors above are due to OCR software and do not occur in the book.) About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology. Forgotten Books Classic Reprint
