

Star Trek: Titan #6: Synthesis (Star Trek: The Next Generation)

Hes fast. Shes furious. Theyre in for the ride of their lives. Rising star Roxanne St. Claire puts the pedal to the metal in a story of intrigue and passion that will get your heart racing! When sexy NASCAR racer Beau Lansing tracks down high society debutante Celeste Bennett, its a matter of life or death. Stunned at the secret Beau reveals, Celeste is forced to make a life-altering decision. But with her love life on the skids and her family life in a tailspin, escaping incognito into Beaus world is just what she needs -- especially if she can get answers about her past. Beau needs Celeste to save a mans life -- he never expected a high-octane attraction that could wreck his well-protected heart. And when Celestes life is threatened by someone who clearly knows her real identity, Beau has to risk everything -- including his own life -- to save her. With menacing forces in the drivers seat and time ticking too fast, the two must win the biggest race of all...the race for their lives and their love.
