

Anger: A Novel

May Sartons sharp exploration of how men and women love and how they clash is shown through one tempestuous relationship. Ned Fraser has never seen himself as a husband. His distinguished job at a Boston bank has kept him satisfied while a string of failed love affairs has concerned him little. But no woman has ever affected him the way Anna Lindstrom does. A concert singer of immense charm and beauty, Anna is possessed of a vibrant presence that stands in stark contrast to Ned's diffidence. And yet despite herself, she can't help but be drawn to the persistent suitor who plies her with flowers. Their courtship is short and intense, and the spark that brought them together fuels not only their love, but also a needling undercurrent of volatility. Her passion and narcissism agitate him, while his tempered restraint bores her into resentment. Their opposing personalities lead to anger and conflict, and ultimately to a crossroads that will either tear their young marriage apart or weave it back together, stronger than ever.
