

The Return: Titan, Book 1

The Fates are cackling their bony asses off... Its been a year since Seth made the deal with the gods that pledged his life to them. And so far, the jobs theyve given him have been violent and bloody - which is kind of all right with him. But now Apollo has something else in mind for Seth: He has to play protector while keeping his hands and fingers off, and for someone who really has a problem with restraint, this new assignment might be the most challenging yet. Josie has no idea what this crazy hot guys deal might be, but its a good bet that his arrival means that the new life she started after leaving home is about to be thrown into an Olympian-sized blender turned up to puree. Either Josie is going insane or a nightmare straight out of ancient myth is gunning for her.
